

ST. LOUIS BUSINESS MEN TO VISIT BRYAN!

A REVIVAL MEETING WILL BEGIN CHRISTIAN CHURCH

Under Direction of Pastor Calmes Will Begin Next Sunday—Evangelist Swindle and Singer Crow Will Direct the Meeting and Song Service

EVANGELIST L. SWINDLE OF SEYMOUR

Rev. C. N. Calmes, pastor of the Christian church, announces that Evangelist L. Swindle of Seymour, Texas, will begin a meeting next Sunday at the First Christian church, assisted by Mr. and Mrs. Francis L. Crow, song evangelists. Evangelist Swindle is a great speaker, a Bible scholar and preaches the gospel in all of its simplicity. He is one of the few men who has the Bible memorized. He was pastor of the largest church in California for four years and also served as state evangelist of California for two years.

Song Evangelist Crow is also a great man in his place. A singer of note. We feel sure he will please the people of Bryan with his wonderful voice. Mrs. Crow is a personal worker and also directs the young people's work. An invitation to the Bryan people is extended, especially do we ask all the singers of the other churches to help us with the choir.

Brazos County for Saving the Public Schools for 1922-23

(By P. S. Mangum).

At a mass meeting of patrons, trustees and teachers of Brazos county held in the county court room Saturday afternoon, presided over by County Superintendent Eck Smith, the emergency confronting our schools was gone into and the facts just as they confront the schools of the state looked squarely in the face. By invitation Hon. Lee L. Rountree, our representative was asked to discuss the matter and make some suggestions as to how the serious conditions can and may be met. Mr. Rountree brought out the unpleasant and outstanding truth that our present school system is but a makeshift, subterfuge and inefficient patch work affair; that our great public domain, upon which we have looked as a great unfailing source of revenue or our schools is no more; that it has been given to railroads and other enterprises until there is no more to give. And now, that we are face to face with the problem of raising from year to year the funds to run our schools upon, and that this fund will fluctuate up and down, making it impossible for our schools to know more than a few months ahead how much money they will have, because the State Legislature cannot be depended upon to do the right thing by the schools, just as the last legislature so orceably demonstrated. Mr. Rountree then touched upon Governor Neff's "Think-out-loud" conference, and the great outstanding fact that our only hope lies in the calling of a "Constitutional Convention" in Texas at which time our schools may be permanently provided for; and that the proper way to raise the funds for the schools of the state is the laying of a 'Blanket Tax' mileage tax which will cover every commodity and resource of the state. And we heartily agree with him that every taxable bit of property should bear its proportion towards the maintenance of our schools, for are not the schools the state? Can the state ever rise above her

school system? And does not the school system largely determine everything else? And is not our future and that of the schools one and the same thing? When told what the mass meeting had proposed to do in the present crisis as a temporary solution, Mr. Rountree agreed and said "that the only thing that can be done now is for the Governor to call a special session of the Thirty-Seventh Legislature, and ask the members to make the necessary appropriation and then seek means of raising the revenue to meet the appropriation." So, resolutions were passed and a petition drawn up, asking the Governor to call such a session of the legislature. This petition will be circulated over Brazos county for every voter to sign. It seems our only hope. Unless something is done and done now, our school terms will be cut another year at least two months. Some of our schools will not be able to run more than four months. It is the gravest problem facing the schools we have had in a long time. Our last legislature did not realize what it would do for the school system of the state. Something must be done and done now. All we as Brazos county citizens can do right now is to help get the petition over the county as fast as possible. Other counties are doing so as fast as they can. If we will arouse ourselves, the situation can be met, but it will take vigorous action and immediate action before it is too late. Prof. C. E. Bobo of Harvey, Prof. G. M. Ammons of Tabor, E. R. Alexander, County Agent C. L. Beason, Dr. Wm. E. Garrett, P. S. Mangum of Edge and others spoke along the lines of more activities for our public school system in Texas. A committee of five were appointed by Superintendent Smith to draw up a suitable petition as follows: G. M. Ammons, Will Hill, P. S. Mangum, Miss Mary Locke and Lee J. Rountree.

Work is progressing on the Sam G. Parker residence on College Avenue. When completed this will be one of the attractive bungalows of Bryan.

POULTRY ASSOCIATION TRANSACTS BUSINESS AT MONTHLY MEETING

The Brazos County Poultry Association held an important monthly meeting in the Chamber of Commerce rooms Monday night, President J. F. Oates presiding with the following members present: Carl Wipprecht, N. A. Stewart, T. J. Conway of A. & M. College, J. H. Chastun, W. L. Hillin, O. L. Horne, C. E. Jenkins, N. H. Turner (a federal student), J. H. Conway, President J. F. Oates, County Agent C. L. Beason, W. O. Sanders, Will Jones and E. R. Alexander.

Messrs. Beason and Alexander were appointed by the association to arrange a poultry program to be held at Smetana within the next ten days by the organization for the purpose of getting the people of that community more interested in poultry raising and revealing to them through talks by members, the opportunities open to them here.

By a vote the members decided on January 3, 4 and 5 as the dates for holding the next annual poultry show. The association now has 69 members, and is doing much to make poultry-raising of prime importance and of immense popularity in Brazos county. Many instances were recited at the meeting of young farmers starting into the poultry business through the county, encouraged by the poultry show held last January.

Fifty neat, wire coops were ordered by individual members of the association for the show with others in contemplation, besides those owned by the association. A committee was appointed by President J. F. Oates to ascertain just what the next poultry show would cost, composed of George A. Adams, chairman, C. E. Jenkins and Hendrix Conway. Much discussion of the best means of making room for all the birds to be shown by professionals and amateurs at the next exhibition was indulged in by all members. Mr. C. E. Jenkins, one of the leaders of the association and at all times a booster of poultry, explained the efforts of the poultry organizations in other towns and the success met with there. It was due largely to the hard work of Mr. Jenkins that the Brazos County exhibit last January in other towns and the success County Agent C. L. Beason announced he now had 87 poultry enthusiasts in the country districts as against 17 a year ago. It was voted that the first Monday night of each month would hereafter be meeting night. Some mighty interesting figures on what it costs to produce good eggs were given by Mr. J. H. Chastun, a member, formerly a federal student at A. & M. College and now operating a successful poultry farm about a mile east of Bryan. He said that out of 73 hens during the month of March he got 1357 eggs, at an average cost of ten and one-half cents per dozen, counting the expense for food, grain and mash. The number of eggs each hen laid during one month varied more but all showed up well. During February the eggs of individual hens totaled as follows: 14 eggs, 15, 19, 22, 17, 11, 9, 7, 8, 5, 1, 7 and 20 eggs. During March the different hens produced each: 17 eggs, 12, 20, 21, 16, 20, 18, 23, 22, 20, 21, 9 and 16 eggs. This is a good average.

Mrs. J. C. Morgan went to Hearne today to meet her husband, J. C. Morgan who is returning from Mansfield, Ohio, where he attended the funeral of his father, Mr. Noah Morgan. Mr. Morgan, Sr., was a very prominent and active insurance man of Cincinnati, and died suddenly in that city on Thursday, April 6. His son, J. C. The social meeting Friday night of the Tabor boys and girls of "Victory Agricultural Club" was a great success, judging from the attendance and interest shown. Music, club yells, and outdoor games were some of the interesting features of the evening's entertainment. During the social hour light refreshments such as sandwiches, coffee, cake, hot chocolate, pies, etc., were served for the benefit of the club, the total receipts amounting to about \$25. A most interesting contest was enjoyed in the auctioning of a cake to the most popular young lady. Among the nominees were Miss Willie Mae Collard, Miss Mary Benbow, Miss Mary Locke, Miss Hettie Francis, Miss Una Edge, Miss Mary Ruth Holden, Miss Susie Benbow. The contest resulted in Miss Ruth A. History of Fourth Texas District Club Federation

(By Mrs. Lee J. Rountree, Publicity Chairman).

Twenty years ago under the administration of Mrs. Percy V. Pennybacker as president of the Texas Federation of Women's Clubs in 1902-03, the women were far seeing enough to realize the possibilities of development and agreed to divide the state into five districts, thus the Fourth District was created. This task of dividing the state was entrusted to a Bryan woman, Mrs. M. W. Sims, who at the time was a vice president of the State Federation. It was she who held the "first district meeting" which was also the fourth. Very confusing to the "fish" but easily explained when we say the Fourth District held the first district meeting because Mrs. Sims lived in that district and in the words of Decca Lamar West "she must show them how" and she is still "showing them how," for the Fourth continues the largest, geographically, numerically and in good works, for it is always first "over the top" in every enterprise that the state federation has undertaken. No one doubts it is still due to the magic influence of its first presiding officer. The high standard of excellency set for the district by the first president has been up held by those who have followed after her, among whom are: Mrs. Henry Fall of Houston, Mrs. J. C. Nagle, College Station, Miss Decca Lamar West of Waco and Mrs. C. M. Hughes of Wharton. All during the twenty years the district has ever numbered among its ranks some of the brightest, most capable and charming woman of the state. This the twenty-first consecutive year of the districts existence has in many ways been one of the most profitable, giving assurance of the very evident progress of the district in the past twenty years and of its influence for the good of the home, the school and such movements as tend to the betterment of the community.

Mrs. J. C. Reynolds of Port Arthur who is now serving the district as president under her wise leadership and through her able direction has maintained the high standard of efficiency which has marked the work of the district since its organization and even greater and higher things have been attained.

The meeting was full of interest along agricultural, educational, home building and business lines and Secretary Eberstadt read the letter from the St. Louis Chamber of Commerce.

BIG WOLF KILLED A TURKEY AT WHEELOCK

Report comes to Bryan that a big wolf over in Robertson County sometime Monday night attacked and devoured a 40-pound turkey gobbler on the farm of George Moss. Several hunting parties went after Gen. Wolf but so far have failed to land him. We are going to suggest that J. E. Covey and Curt Oliver organize a party and go after him. We point them to the fate of "Little Red Riding Hood." The wolf must be captured or killed.

PARK'S JEWELRY STORE IN NEW QUARTERS TO OPEN NEXT SATURDAY

Park's Jewelry Store will open ready for business in their attractive new quarters at 2518 East Main Street on next Saturday. The store is centrally located and the usual high class merchandise will be in stock. In spite of the flood Mr. Park has gone to quite an expense to give Bryan a first-class jewelry store. The new quarters are made most inviting to the eye by new merchandise, new fixtures and new service with a private sales room in the rear where customers can make their purchases in private if they so desire. An artistic fresco tracery of black has been painted on the two show windows adding a touch of refinement seldom seen in windows of jewelry stores of cities the size of Bryan. The old site of the store, on 26th Street, will be occupied at once by E. V. Rhodes & Co., tailors.

JUDGE DAVIS AT HOME

District Judge W. C. Davis returned home from Franklin at a very early hour this morning where he has been presiding over the Robertson County district court. Judge Davis was seen at an early hour this Saturday morning—mowing his lawn. He must have eaten very heartily at Hearne as usual at 2 or 3 o'clock a. m. and needed the lawn-mowing exercise to eat another breakfast. Judge Davis always enjoys the midnight trip from Franklin to Bryan and his regular sojourn in Hearne.

SOCIAL MEETING OF TABOR VICTORY CLUB

The social meeting Friday night of the Tabor boys and girls of "Victory Agricultural Club" was a great success, judging from the attendance and interest shown. Music, club yells, and outdoor games were some of the interesting features of the evening's entertainment. During the social hour light refreshments such as sandwiches, coffee, cake, hot chocolate, pies, etc., were served for the benefit of the club, the total receipts amounting to about \$25. A most interesting contest was enjoyed in the auctioning of a cake to the most popular young lady. Among the nominees were Miss Willie Mae Collard, Miss Mary Benbow, Miss Mary Locke, Miss Hettie Francis, Miss Una Edge, Miss Mary Ruth Holden, Miss Susie Benbow. The contest resulted in Miss Ruth A. Holden winning the cake on a vote of 19,500 with Miss Susie Benbow a close second with 18,000 votes. Miss Holden presented the beautiful cake to Mr. Roy Hudspeth, who in a brief word of acceptance stated that he would be glad to send it to some member of his family now detained in the hospital. He stated that he was glad to encourage the boys and girls club at Tabor a community that has attracted attention throughout the country because of its enterprising spirit in community betterment.

County Agent C. L. Beason, the auctioneer, stated that he wanted to remind the Tabor people that the road to progress was not always an easy one, that oftentimes prejudice and ignorance seem to defy the march of progress at every turn of the road. He said he was often reminded of a remark by Mr. I. M. Cook who stated that it seemed unfortunate that progressive measures should ever be hindered by any opposition. Among those attending the entertainment from Bryan were: N. H. Turner, Elliott Beason, Margaret Walker, Miss Ella Francis, Miss Velma Beason, Will Walker, Roy Hudspeth, Miss Willie Mae Collard and County Agent C. L. Beason.

MORE DRUMMERS HERE THAN FARMERS BY ACTUAL COUNT

History of Fourth Texas District Club Federation

(By Mrs. Lee J. Rountree, Publicity Chairman).
Twenty years ago under the administration of Mrs. Percy V. Pennybacker as president of the Texas Federation of Women's Clubs in 1902-03, the women were far seeing enough to realize the possibilities of development and agreed to divide the state into five districts, thus the Fourth District was created. This task of dividing the state was entrusted to a Bryan woman, Mrs. M. W. Sims, who at the time was a vice president of the State Federation. It was she who held the "first district meeting" which was also the fourth. Very confusing to the "fish" but easily explained when we say the Fourth District held the first district meeting because Mrs. Sims lived in that district and in the words of Decca Lamar West "she must show them how" and she is still "showing them how," for the Fourth continues the largest, geographically, numerically and in good works, for it is always first "over the top" in every enterprise that the state federation has undertaken. No one doubts it is still due to the magic influence of its first presiding officer. The high standard of excellency set for the district by the first president has been up held by those who have followed after her, among whom are: Mrs. Henry Fall of Houston, Mrs. J. C. Nagle, College Station, Miss Decca Lamar West of Waco and Mrs. C. M. Hughes of Wharton. All during the twenty years the district has ever numbered among its ranks some of the brightest, most capable and charming women of the state. This the twenty-first consecutive year of the districts existence has in many ways been one of the most profitable, giving assurance of the very evident progress of the district in the past twenty years and of its influence for the good of the home, the school and such movements as tend to the betterment of the community.

Mrs. J. C. Reynolds of Port Arthur who is now serving the district as president under her wise leadership and through her able direction has maintained the high standard of efficiency which has marked the work of the district since its organization and even greater and higher things have been attained.

In the meantime crime runs rampant in the city of Dallas. There is a good deal of ignorance being displayed in Dallas.

Inefficiency is one of the great evils of the present day. It means education, training and service for the future if we get back to normalcy.

Legitimate advertising is oftentimes given a stunning blow by fake advertising. Newspaper advertising is the best. The people read the newspapers.

The friends of Major Ike S. Ashburn of College, are mentioning his name throughout the district as a suitable candidate for Congress to succeed Congressman Hardy, who is not a candidate. Major Ashburn would make a good Congressman from the old Sixth District.

Mrs. Mary Hunt Affleck, of Brenham, a gifted Texas woman and a writer of note, will be at College to attend the Woman's Club Federation. Mrs. Affleck has given much to the greatness, glory and honor of Texas, the greatest state in the American union and the Eagle is glad she came to the Federation.

Nine able-bodied tramps were in Bryan one morning this week. My, what a glorious amount of cotton they could chop. But they wanted a position and not a job and they begged money for meals and went on. They did not have time to perform any honest labor.

Congress has ultimately killed the free seed distribution. This was one of the grafts of the age. Now if Congress will abolish about 100,000 unnecessary positions it will really do something for the taxpayers. There are many positions on the parity with the walking delegate, absolutely unnecessary and must be paid for by the man who works.

The Texas railroads should loosen up and do a little more business boosting. The rates are higher than ever known and efficiency is running at the lowest ebb. If every business in Texas was conducted as the railroads are they would go on the rocks in thirty days. The war wrecked railroad efficiency and pep. The railroads should advertise for more business and deliver the goods. The war is over and it is time for everybody to go to work.

The Houston Post says: "It is said that the coal strike is causing a loss of \$3,000,000 a day in wages. And whatever may be the result, that time and that money will be lost for good. Wasted time can never be recalled. The striker simply surrenders for himself and his family so much of his life and his capacity to serve." The strike could have been settled if it had not been for some professionals who must make trouble and be able to collect their salary that they do not earn. And certain people stand for such conduct.

Two girl bandits with painted cheeks, blue eyes and yellow bobbed hair robbed Mme. Amelita Galli-Curci opera diva, of jewels valued at \$45,000 the other day near Los Angeles. We've often wondered why jet-rich quick people didn't spend their money buying a farm so it would be safe—as nobody wants a farm. This was such a bold robbery that it was more than was expected in movie-land. It is understood that a collection will be taken to purchase Mme. Curci \$50,000 worth of jewels and a poodle dog by the fool American people. It is understood she already has a husband but he doesn't count for anything.

NAME FOR GOAT MEAT

Director B. Youngblood of the Texas Agricultural Experiment station of the A. & M. College, has been placed on a committee with a number of distinguished Texans to select a suitable name for goat meat so that it will be more palatable. At least one time when we were out on the West Texas plains a little boy who was nearly starved said if somebody hadn't been so foolish and named the animals so prolific out there prairie dogs (suggesting prairie squirrels) he wouldn't be starving that day. There is a good deal in a name. The only thing is we have been advocating the decrease in production of everything until there is hardly any goat meat left. Many people believe the less they produce the more they will get for it and believe too that if we have to haul our money around in a wheelbarrow to buy a goat that the country is prosperous even though there are no goats to buy. We have contracted a strange idea of prosperity that the least we do the more it is worthy to eat and to wear. In the meantime, the Eagle trusts Dr. Youngblood and his distinguished committee will find a good name for the goat-meat and then pass the meat. That's business.

How are you to be known as a live dealer if you do not advertise?

MADE AND WON A GREAT FIGHT FOR EDUCATION

(O. P. Gresham in Texas Pythian-Banner Knight).

Representative Lee J. Rountree, of Brazos county, who in 1920 was drafted to serve in the Texas legislature and was not a candidate for the office, is being urged to enter the race for lieutenant governor. Lee made a great fight for education in Texas during the last session of the 37th legislature and his speech for the A. and M. College bill and other educational institutions was one of the best that was made on the subject in Texas, declaring as he did that the educational institutions belonged to the men who wanted to perpetuate them and not to those who would destroy them. Texas education and the people owe much to him for the declarations that create as a whole for better things in Texas. It would be almost a calamity to lose his services at Austin at this time, and in the present crisis. In his work for education, he likewise has been able to spread the Pythian gospel through his popular paper, the Bryan Eagle. The Lockhart Post-Register in speaking of his work for Texas says: "Editor Lee Rountree, editor of the Bryan Eagle and representative from Brazos county, would make a good lieutenant governor for Texas. Editor Rountree has in one way or another done much for the State of Texas and has been the recipient of few honors, because he has not asked anything, not being an office seeker. He is a gentleman of the old school, is possessed of a high order of intelligence—in fact, has every qualification for a useful official and one of whom this great commonwealth could well be proud. He should get into the race and can be elected and has many friends in Caldwell county who will support him loyally."

Not only in Caldwell county, but all over Texas, there are people who know Lee Rountree and know that he would make a splendid lieutenant governor, and would rally to his support in winning numbers. Why don't you get in, Lee and give your Limestone county friends a chance.—Col. Nick P. Houx in Mexia Daily News.

FOR LIEUTENANT GOVERNOR.

The friends over the state of Representative Lee J. Rountree of Bryan are soliciting him to make the race for lieutenant governor at the coming primary. Lee, as he is known among the press of Texas, is quite well known and would fill the office with honor to the state and himself.—John Kutherford in Franklin Texan.

Says a recent issue of the Lockhart Register: "Editor Lee Rountree, editor of the Bryan Eagle and representative from Brazos county would make a good lieutenant governor for Texas. Editor Rountree has in one way or another done much for the State of Texas and has been the recipient of few honors, because he has not asked anything, not being an office seeker. He is a gentleman of the old school, is possessed of a high order of intelligence—in fact, has every qualification for a useful official and one of whom this great commonwealth could well be proud. He should get into the race and be elected and has many friends in Caldwell county who will support him loyally." Lee's friends are not only confined in Caldwell county, they are found over the entire state, and they stand ready to take up the fight for him should he lean favorably to the call of those who believe he will make a good lieutenant governor. I have had my ears to the ground for some time and have listened patiently but up to now disappointment has been mine. If the press boys set in to do a little prodding Lee may come to a decision, and he be requested by a majority vote to assume the office of lieutenant governor.—Ben F. Harigel in La Grange Journal.

Representative Lee J. Rountree, editor of the Bryan Eagle, is being spoken of by many newspapers over the state as a suitable candidate for lieutenant governor of Texas. He is now representative of Brazos and Grimes counties and is thoroughly qualified to fill the office of lieutenant governor, and we predict if he enters the race there will be a Rountree landslide. Everybody knows Lee and knows he is as straight as a shingle and honest in everything he does and can be depended on in any crisis.—Col. John G. Rankin of Brenham in Burleson County Ledger.

Editor Lee Rountree, of the Bryan Eagle, has been mentioned in the press of Texas, as suitable material for a lieutenant governor and we agree with our brethren. Lee Rountree is sound on public questions, a thinker and a writer of rare ability. His worth to his people by his newspaper work cannot be estimated; his value to the people of Texas as a legislator is excelled by no other member of the House. Lee Rountree would be a credit and honor to Texas as lieutenant governor and his loss from the Texas legislature at this time would be deeply regretted.—Lee Kirgan in Fairfield Recorder.

(The Jewett (Texas) Messenger says of Lee J. Rountree, managing editor of the Bryan Daily Eagle and former president of the National Editorial Association and well known in Chicago editorial circles, having been a guest of the Chicago Press Club: "Representative Lee J. Rountree of Bryan has been favorably mentioned for Congress from this district by leading men from all parts of Texas. Representative Rountree is a big man in Texas and has demonstrated that fact, but not an office seeker. The people of his county drafted him to the legislature, and now it seems that people of this district are going to send him to Congress. The writer has known Lee Rountree a long time and we are safe in saying that there is not a brainier or cleaner man in Texas and he has given much usefulness to the service of this state."—Publishers Auxiliary, Chicago, Ill.)

The Houston Post of April 10, 1897, twenty-five years ago, says: "From Flintonia Record.—No man is better known and more popular about the capitol than is Hon. Lee J. Rountree, chief clerk of the House of Representatives. He is known as a staunch democrat and a hard hitter. He was elected chief clerk without opposition all other candidates withdrawing in his favor because he gave his time and service for the Democratic party in southwest Texas when it seemed a hopeless task to elect Culbertson governor and carry that section for Bryan for president."

Despite the fact that Representative Lee J. Rountree, of Brazos County has so far failed to answer the call of his friends in Texas to

BRAZOS COUNTY MAN URGED FOR LIEUTENANT GOVERNOR

(Henry E. Ellis in Denison Herald) Friends of Editor Lee J. Rountree, editor of the Bryan Eagle, have been saying some very nice things about him in connection with the lieutenant governorship and urging him to "shy his castor" into the ring. At present Editor Rountree represents Brazos and Grimes counties in the Lower House of the Legislature and is quite popular with his home people, having endeared himself to them both by his qualities of citizenship as well as the fidelity with which he guarded their interests at Austin. Among the many press notices coming to our attention concerning him and the lieutenant governorship, we quote the following from the Lockhart Post-Register: "Editor Lee Rountree, editor of the Bryan Eagle and representative from Brazos County, would make a good lieutenant governor for Texas. Editor Rountree has in one way or another done much for the state of Texas and has been the recipient of few honors, because he has not asked anything, not being an office seeker. He is a gentleman of the old school, is possessed of a high order of intelligence—in fact, has every qualification for a useful official and one of whom this great commonwealth could well be proud. He should get into the race and can be elected and has many friends in Caldwell County who will support him loyally."

Editor Rountree has been an active participant in state politics for a number of years—we refrain from mentioning the number because he might consider it a reflection on his age. Suffice to say that while he may not be as old as Col. Jeff. McLenore who was present when the stars fell, it is a matter of common knowledge that he knows the political history of Texas better than any living man unless it be Hugh Nugent Fitzgerald of the Wichita Falls Record-News. And, it can be stated as a truth that he has at all times been "regular" never scratched the ticket or chafed at the collar. In point of ability, Editor Rountree is the equal of all aspirants; in point of service to the state and in upholding the tenets of the Democratic faith—none stands as high. Personally, he is of the best of men as is evidenced by the hoops of steel with which his countless friends are hooked to his soul. In line with the suggestion that Editor Rountree would carry Grayson County former County Attorney H. H. Cummings and member of the 37th Legislature says: "Unstintingly he will have my support if he will make the race for lieutenant governor. Texas needs more men in office who are not office seekers."

run for lieutenant governor he is being urged to make the race from all sections. His great speech on education in the 37th Legislature won universal approbation and as Dr. H. F. Estill of the Sam Houston State Normal recently remarked: "Will in time make his name a household word in Texas." In that speech Representative Rountree declared a great and undying truth when he said: "The government and these educational institutions do not belong to the men who would destroy them but they belong to those who would perpetuate them and believe our government and our schools should be the greatest on earth."—The Paradox.

There is no better man in the state for Lieutenant Governor than Lee J. Rountree, editor of the Bryan Eagle, and representative from Brazos county. He has been one of the leading newspaper men of the State for a number of years. His editorials have been reproduced and read more widely than any editor of weekly press in Texas. He is a democrat with the very highest conceptions of the principles of the party, municipal, state and national. He is a progressive in that he believes in the growth and development of our great Commonwealth. He has always supported every measure that has been for the good of the common class. He loves our public school system and has been its constant friend both in the press and in the legislative halls and should be induced to run would receive the unanimous support of the teachers of the State. The writer knows Lee Rountree and the noble sentiment that controls his life and if he wants to be Lieutenant Governor of Texas we will support him and cast a vote for him with the freest heart that we ever cast a vote.—R. E. Scott in Bastrop Advertiser.

BAPTIST BANQUET IS WONDERFUL SUCCESS

Dr. John A. Held, pastor of the First Baptist church, presided over a laymen's meeting at the Baptist tabernacle following the Mens' Bible Class banquet on Wednesday evening. Addresses were made by Dr. Held, Rev. J. J. Pipkin, Missionary for Brazos County, Mr. Max McCarey, of Calvert, chairman of Robertson County, Rev. C. E. Bullock of Hearne, Rev. R. L. Brown of College, Prof. A. B. Ford and Jno. A. Moore, Jr., of Bryan and the following officers were chosen for the Bryan work: W. S. Howell, chairman, E. R. Alexander, vice chairman, T. H. Hatton, secretary and R. R. Ellis treasurer. This movement is for the active participation of the laymen in the onward and forward work of the Baptist church, a movement that was characterized by Dr. Held, Rev. Bullock and others as the most important ever inaugurated.

Mens' Bible Class Banquet
The Mens' Bible Class banquet was held at the tabernacle at 9 o'clock. This was to celebrate the end of the Wallace-Ford contest for members of the Bible class which meets every Sunday morning at 9:30 o'clock at the Queen Theatre. M. E. Wallace's side won over A. B. Ford's side, hence the latter gave the banquet which proved to be the greatest of its kind ever held in Bryan. President A. S. Ware of the Mens' Bible Class, was toastmaster and discharged well the duties. Prof. Gabe Cazell was song leader and opened the festivities by the banquetters singing that inspiring hymn "Onward Christian Soldiers."

The cheering song was a melodious one offered by Prof. Cazell, entitled "Old McDonald Had A Farm." After the principals of the contest had spoken, Mr. Mays Behrman of Waco, secretary of the Alumni Association of Baylor University made a talk. Mr. Behrman came to Bryan in the interest of rebuilding campaign at Bryan and said he would be here later to present this great cause.

Dr. Jno. A. Held announced that the next Mens' Bible Class contest would begin next Sunday morning to be known as "Boring For Oil Contest" to bring in "the gusher" at the close. Each membership represents one share and each man bringing in a new member has one share and two for the new member. The contest will continue for six weeks with the following leaders: The Right Side—D. L. Wilson, captain, R. W. Howell and A. K. Brown; The Left Side—J. M. Ferguson, captain, J. E. Brown and M. E. Wallace. Lieutenants Two other lieutenants for each side will be selected later and announced.

The ladies of the Baptist church who served this delightful banquet were thanked in a resolution by a unanimous rising vote for their splendid achievement on this occasion in arranging the details of the most successful banquet of its kind ever given in Bryan. In the resolution of thanks, Prof. Gabe Cazell who led the singing of the occasion was included.

Dr. Held then closed the banquet program, singing "Ladies Will Shine Tonight." Dr. Held expected to sing a solo but the banquetters joined in the chorus. Elbert Gammon, Ralph Turner, E. E. McAdams, Harold Sanders and Charley Meyers took the song away from Dr. Held and carried it "over the top" in grand eloquent style. Prof. Gabe Cazell sat silently by and wondered at the musical ability of the singers. Dr. Held came down on Main Street Thursday morning walking on air and still singing "The Ladies Will Shine Tonight."

There will be another banquet in about six weeks, Dr. Held announces. Present were: Dr. John A. Held, C. E. Bullock, of Hearne, Postmaster Max McCarey of Calvert, A. L. Ward, H. P. REV. CRIMM IN CLEVELAND
Dr. John A. Held is in receipt of a letter from Mrs. A. W. McKee of the Crimm revival party in Cleveland, Ohio. Mrs. McKee says that Evangelist B. B. Crimm is making a great impression in the Ohio city. Mrs. McKee says great congregations are interested in the meeting. Mrs. McKee says that the whole Crimm party fell in love with the people of Bryan. They will be back to Texas at a meeting in Calvert next August.

Sam Corrobb, an enterprising young Italian farmer of the Prospect community is delighted with the terracing of the County Agent helped him do and plans to terrace his entire farm in early fall. Mr. Corrobb is also interested in better seed and will cooperate with the County Agent in growing two seed breeding plots, one each of corn and cotton.

The fellow who is growling about making nothing on the farm is not the fellow who keeps a good milch cow, a pure bred sow and 100 standard bred hens. Neither will you find him, as our fathers of old sitting on his plow beam waiting for daylight to come. It used to be considered a reflection to see a farmer getting out to his work after sun-up and the lateness would invoke inquiry as to the health of his family. One day this week two tenant farmers were observed, one getting out to work in the morning when the sun was two hours high; the other going out in the afternoon after three o'clock. There is a reason for short production, poor crops, and the unsatisfactory conditions found on many farms. We might just as well view the matter in the light of the facts in the case. More intelligent work is needed.

Lucile Rosprim, club member of College, sends in another good report of her poultry work for March. She states that her twelve Barred Rock pullets laid two hundred and sixteen eggs, which she sold for \$22.70. Deducting the feed bill \$2.89 1-4, leaves a profit of \$19.80 3-4 for the 12 pullets during the month of March. That is fine. Lucile and we hope you will have some more good news to tell us at the club luncheon next Monday.

The Demonstrations in pecan budding and grafting will begin next week and probably continue for some time. If you are interested in this work, attend the demonstrations in order to learn how easily this work can be done. It is hoped that demonstrations can be given in Bryan, Benchley, Smetana, Tabor, Edge, Reliance, Kurten, Harvey, etc.

Mr. Aaron Sapiro, the noted marketing specialist will deliver two lectures at College next Wednesday, April 19. You may be quite busy, but business man and farmers alike are beginning to realize the real significant meaning of the marketing problem, which is a mutual one, and for this reason it would be well to attend these lectures that we may be the better prepared some day to solve the problem which we must eventually tackle in earnest.

Club luncheons at Smetana, Prospect, and Millican this week. A social meeting of the Karvey club will be held Thursday night. We hope to give a moving picture show for the Steep Hollow club soon. When are you ready, President Mathis? The Tabor club will have a meeting Wednesday afternoon of this week at 2:30 p. m. In the language of Rev. Crimm, club work is "going some." Get in and ride.

Club Notes and Farm News by County Agent C. L. Beason

Don't fail to see the fine horses on the streets of Bryan next Saturday, 2 p. m. Bobbie Burns, the high school course, may be present to help in the entertainment.

A visit to Mrs. G. W. Emory's farm, five miles from Bryan on the Kurten road, will convince the most skeptical that terracing is the thing for land that washes. Mrs. Emory's farm is not only improving already, but her tenants see the good of terracing and are taking an interest in keeping them built up. If tenants would give more attention to this sort of thing they would find more landlords ready, and able, to lend them more assistance than many are now getting. Landlords are tired of holding the bag while thriftless tenants stand idly by indifferent as to the success of the business. Tenants and landlords must get closer together in a cooperative way, use their heads and stay on the job six days in the week.

You have always heard that "proof of the pudding is eating it." Well, here is the proof: Last August Mr. L. R. Watson, Bee Specialist, A. & M. College, living corner of 23rd and Houston streets, Bryan, tackled a Bermuda sod in order to have a fall garden. The success of the undertaking is attested not only by the fact that Mr. Watson now has one of the best gardens in the city, but by the statement from him and his wife that for four or five months they have had all the vegetables they could use, such as turnips, cabbage, lettuce, radishes, mustard, collards, spinach, swiss chard, beets, carrots, salsify, peas, etc. They celebrated their Christmas dinner with a vegetable dinner, while many ate Kansas City bacon, or Ft. Worth beef. Mr. Watson states that the cost of this garden, including tools, has been around \$15, while the vegetables they have used would have amounted to more than double that amount, and still the garden flourishes.

The Brazos County Poultry Association is getting down to real business; a date for the county show already set, regular monthly meetings announced, and frequent trips to the country in interest of standard bred poultry. Such steps will bring results, and if everybody will get in and push, and leave the devil to knock, Brazos County will in the near future be a great poultry center, as well as a county leading in agriculture.

"Minister Leads Farm Drive"—The gospel of "grow your living at home" is preached from the pulpits at Wynnwood, Oklahoma, churches. Through the influence of the Rev. M. L. Rice, pastor of the Presbyterian church, a campaign was started to place at least two good milch cows, two brood sows, and 100 laying hens on every farm within Wynnwood's trade territory. To spread the propaganda the Chamber of Commerce raised \$500 with which to buy a portable moving picture machine to be used in the rural districts, and the Rev. Rice was placed in charge of the campaign. County Agent A. T. Burge, Pauls Valley, Okla., "American Farming, April. Such a thing for us would mean more to Bryan than the cotton crop of Brazos County, and yet it need not affect the cotton crop at all—just another source of revenue, gentlemen; just another number in the program of diversified farming; just distributing your eggs to more than one basket.

Mr. J. Webb Howell is of the opinion that the bankers of the country should come to the rescue in a safer farming program by insisting that the farmer who borrows money—and who does not—should raise his food and feed stuffs at home. This is also the doctrine of Mr. P. H. Downs, banker-farmer, Temple, Texas, who practices what he preaches, so far as his own tenants are concerned. Brazos County's feed bill this year is staggering, and the continued repetition of the cost will wreck our agriculture beyond a doubt. With our agriculture wrecked, our greatest natural resource is gone.

Sam Corrobb, an enterprising young Italian farmer of the Prospect community is delighted with the terracing of the County Agent helped him do and plans to terrace his entire farm in early fall. Mr. Corrobb is also interested in better seed and will cooperate with the County Agent in growing two seed breeding plots, one each of corn and cotton.

A visit to Mrs. G. W. Emory's farm, five miles from Bryan on the Kurten road, will convince the most skeptical that terracing is the thing for land that washes. Mrs. Emory's farm is not only improving already, but her tenants see the good of terracing and are taking an interest in keeping them built up. If tenants would give more attention to this sort of thing they would find more landlords ready, and able, to lend them more assistance than many are now getting. Landlords are tired of holding the bag while thriftless tenants stand idly by indifferent as to the success of the business. Tenants and landlords must get closer together in a cooperative way, use their heads and stay on the job six days in the week.

You have always heard that "proof of the pudding is eating it." Well, here is the proof: Last August Mr. L. R. Watson, Bee Specialist, A. & M. College, living corner of 23rd and Houston streets, Bryan, tackled a Bermuda sod in order to have a fall garden. The success of the undertaking is attested not only by the fact that Mr. Watson now has one of the best gardens in the city, but by the statement from him and his wife that for four or five months they have had all the vegetables they could use, such as turnips, cabbage, lettuce, radishes, mustard, collards, spinach, swiss chard, beets, carrots, salsify, peas, etc. They celebrated their Christmas dinner with a vegetable dinner, while many ate Kansas City bacon, or Ft. Worth beef. Mr. Watson states that the cost of this garden, including tools, has been around \$15, while the vegetables they have used would have amounted to more than double that amount, and still the garden flourishes.

The Brazos County Poultry Association is getting down to real business; a date for the county show already set, regular monthly meetings announced, and frequent trips to the country in interest of standard bred poultry. "Minister Leads Farm Drive"—The gospel of "grow your living at home" is preached from the pulpits at Wynnwood, Oklahoma, churches. Through the influence of the Rev. M. L. Rice, pastor of the Presbyterian church, a campaign was started to place at least two good milch cows, two brood sows, and 100 laying hens on every farm within Wynnwood's trade territory. To spread the propaganda the Chamber of Commerce raised \$500 with which to buy a portable moving picture machine to be used in the rural districts, and the Rev. Rice was placed in charge of the campaign. County Agent A. T. Burge, Pauls Valley, Okla., "American Farming, April. Such a thing for us would mean more to Bryan than the cotton crop of Brazos County, and yet it need not affect the cotton crop at all—just another source of revenue, gentlemen; just another number in the program of diversified farming; just distributing your eggs to more than one basket.

Mr. J. Webb Howell is of the opinion that the bankers of the country should come to the rescue in a safer farming program by insisting that the farmer who borrows money—and who does not—should raise his food and feed stuffs at home. This is also the doctrine of Mr. P. H. Downs, banker-farmer, Temple, Texas, who practices what he preaches, so far as his own tenants are concerned. The fellow who is growling about making nothing on the farm is not the fellow who keeps a good milch cow, a pure bred sow and 100 standard bred hens. Neither will you find him, as our fathers of old sitting on his plow beam waiting for daylight to come. It used to be considered a reflection to see a farmer getting out to his work after sun-up and the lateness would invoke inquiry as to the health of his family. One day this week two tenant farmers were observed, one getting out to work in the morning when the sun was two hours high; the other going out in the afternoon after three o'clock. There is a reason for short production, poor crops, and the unsatisfactory conditions found on many farms. We might just as well view the matter in the light of the facts in the case. More intelligent work is needed.

Lucile Rosprim, club member of College, sends in another good report of her poultry work for March. She states that her twelve Barred Rock pullets laid two hundred and sixteen eggs, which she sold for \$22.70. Deducting the feed bill \$2.89 1-4, leaves a profit of \$19.80 3-4 for the 12 pullets during the month of March. That is fine. Lucile and we hope you will have some more good news to tell us at the club luncheon next Monday.

The Demonstrations in pecan budding and grafting will begin next week and probably continue for some time. If you are interested in this work, attend the demonstrations in order to learn how easily this work can be done. It is hoped that demonstrations can be given in Bryan, Benchley, Smetana, Tabor, Edge, Reliance, Kurten, Harvey, etc.

BAPTIST BANQUET IS WONDERFUL SUCCESS

Dr. John A. Held, pastor of the First Baptist church, presided over a laymen's meeting at the Baptist tabernacle following the Mens' Bible Class banquet on Wednesday evening. Addresses were made by Dr. Held, Rev. J. J. Pinkin, Missionary for Brazos County, Mr. Max Carey, of Calvert chairman of Robertson County, Rev. C. E. Bullock of Hearne, Rev. R. L. Brown of College, Prof. A. B. Ford and Jno. A. Moore, Jr., of Bryan and the following officers were chosen for the Bryan work: W. S. Howell, chairman, E. R. Alexander, vice chairman, T. H. Bullock and others as the most important ever inaugurated.

Mens' Bible Class Banquet
The Mens' Bible Class banquet was held at the tabernacle at 9 o'clock. This was to celebrate the end of the Wallace-Ford contest for members of the Bible class which meets every Sunday morning at 9:30 o'clock at the Queen Theatre. Mr. E. Wallace's side won over A. B. Ford's side, hence the latter gave the banquet which proved to be the greatest of its kind ever held in Bryan. President A. S. Ware of the Mens' Bible Class, was toastmaster and discharged well the duties. Prof. Gabe Cazell was song leader and opened the festivities by the banqueters singing that inspiring hymn "Onward Christian Soldiers." The cheering song was a melodious one offered by Prof. Cazell, entitled "Old McDonald Had A Farm." After the principals of the contest had spoken, Mr. Mays Behrman of Waco, secretary of the Alumni Association of Baylor University made a talk. Mr. Behrman came to Bryan in the interest of rebuilding campaign at Bryan and said he would be here later to present this great cause.

Dr. Jno. A. Held announced that the next Mens' Bible Class contest would begin next Sunday morning to be known as "Boring For Oil Contest" to bring in "the gusher" at the close. Each membership represents one share and each man bringing in a new member has one share and two for the new member. The contest will continue for six weeks with the following leaders: The Right Side—D. L. Wilson, captain, R. W. Howell and A. K. Brown; The Left Side—J. M. Ferguson, captain, J. E. Brown and M. E. Wallace. Lieutenants Two other lieutenants for each side will be selected later and announced.

The ladies of the Baptist church who served this delightful banquet were thanked in a resolution by a unanimous rising vote for their splendid achievement on this occasion in arranging the details of the most successful banquet of its kind ever given in Bryan. In the resolution of thanks, Prof. Gabe Cazell who led the singing of the occasion was included.

Dr. Held then closed the banquet program, singing "Ladies Will Shine Tonight." Dr. Held expected to sing a solo but the banqueters joined in the chorus. Elbert Gammon, Ralph Turner, E. E. McAdams, Harold Sanders and Charley Meyers took the song away from Dr. Held and carried it "over the top" in grand eloquent style. Prof. Gabe Cazell sat silently by and wondered at the musical ability of the singers. Dr. Held came down on Main Street Thursday morning walking on air and still singing "The Ladies Will Shine Tonight." There will be another banquet in about six weeks, Dr. Held announces.

Present were: Dr. John A. Held, C. E. Bullock, of Hearne, Postmaster Max McCrary of Calvert, A. L. Ward, H. P. Dansby, James Paige, Harvey Fender, W. A. Withers, A. J. Buchanan, J. F. Griffin, J. H. BRYAN ROTARY CLUB HELD MEETING WHICH IS LARGELY ATTENDED

The Bryan Rotary Club held a record meeting Wednesday at noon so far as attendance is concerned and the program in charge of Rotarian J. T. Sankey Park was a marked success. The singing was led by Rev. S. Moylan Bird and Prof. Gabe Cazell, who introduced quite a number of new song stunts. County Agent C. L. Beason spoke on "Rotary's Duty to the Farmer Boys of Brazos County."

This was a plea to give more attention to rural as well as town life. Dr. B. U. Sims, a new member, gave a brief outline of "Bryan's Health" and President J. F. Oates, president of the Brazos County Poultry Association, made a good talk on "First Impressions." Then followed County Manager E. E. McAdams, who recommended that the Rotary Club take over the responsibility for the Boy Scout activities of the city.

Secretary Oak McKenzie read the appeal of former governor George Holmgren of San Antonio for aid to restore the library in the State Penitentiary at Huntsville, which was recently destroyed by fire. Lawrence appointed a committee to look after the securing and shipping of books from Brazos County to the library at Huntsville.

NEGROES SING WHILE BRAZOS RIVER RISES

Messrs. Jas. W. James and Earl Morris went out to see the Brazos River at Jones bridge Thursday morning. They state that the water is in a few feet of the bridge and has overflowed the Burleson County side for miles. Only trees, houses and tops of fences can be seen. The negroes out there seem to be very happy, however, and are singing and cheering. In speaking of the trip, Mr. James said: "I could hear the shouts and songs of the darkeys and smell the bacon cooking as the tide waters swept by."
